FOR IMMEDIATE RELEASE

RHUB Named Finalist in Info Security Products Guide Global Awards

Winners Will Be Honored At Technosium 2008, Silicon Valley - California

Santa Clara, CA, October 12, 2007 – RHUB Communications, Inc. (RHUB) announced today that Info Security Products Guide, published and printed in Silicon Valley and the world's leading publication on security-related products and technologies has named the TurboMeeting 200 on-premise Web conferencing appliance, a finalist for the 2008 Global Product Excellence and the 2008 Outstanding Awards in the category of World's Best Software Product/Service. These prestigious global awards recognize security and IT vendors with advanced, groundbreaking products and solutions that are helping set the bar higher for others in all areas of technologies. The TurboMeeting 200 was voted a finalists by more than 11,000 voters from worldwide consisting of end-users, channel partners and readers of Info Security Products Guide. Vendors themselves were not permitted to vote for their products. With over 45 categories, Info Security Products Guide awards are the largest worldwide security recognition from Silicon Valley.

2008 Global Product Excellence and Outstanding Award winners will be honored on January 30, 2008 at [Technosium 2008](#) during the Info Security Products Guide Global Awards ceremony at the Santa Clara Convention Center located in the heart of Silicon Valley, California, USA. RHUB will be amongst the other key industry players at this event.

The RHUB TurboMeeting 200 On-Premise appliance for Web conferencing provides state-of-

the-art conferencing with enhanced security and performance. The TurboMeeting 200 is ideal for sharing and collaborating confidential and proprietary data. Both transmission and access security are provided as well as a full suite of Web conferencing meeting type. In addition, the 200 takes full advantage of the revolutionary “Universal Access” capability of the TurboMeeting software. Any attendee with a modern browser can join the meeting.

Meeting types include:

- Interactive meeting
- Remote Support
- Web Seminar
- Access to this PC

“The Internet revolution probably played the greatest role in helping level business fields worldwide,” says Rake Narang, editor-in-chief, Info Security Products Guide. “Signs of the next generation of IT revolution are now visible and already making an impact worldwide on not just businesses this time but also on social networking and the way each one of us is carving our own identities using the power of an interconnected digital world. Companies such as RHUB are behind the products and technologies that are fuelling this next revolution. The time is right to play a prominent role and be recognized as a part of this new IT revolution.”

“We are proud to be recognized as a key industry player whose products have been named finalist by Info Security Products Guide,” says Larry Dorie, CEO of RHUB. “Behind this distinguished success is our relentless drive to stay customer focussed. We believe this recognition from Info Security Products Guide is a clear validation to the fact that our products and services are gaining greater acceptance from existing and new customers.”
